EXAMINER'S AMENDMENT

Priority

Acknowledgment is made of applicant's claim for foreign priority based on an application filed in GERMANY (DE 203 06 551.4) on 25 April 2003. It is noted, however, that applicant has not filed a certified copy of the GERMAN application as required by 35 U.S.C. 119(b).

Information Disclosure Statement

The information disclosure statement filed 02 July 2007 fails to comply with the provisions of 37 CFR 1.97, 1.98 and MPEP § 609 because the fee set forth in 37 C.F.R. § 1.17(p) has not been paid in accordance with 37 C.F.R. § 1.97(c)(2) and Applicant has specifically stated on page 6, the second sentence of the first paragraph of the Remarks section of the Amendment filed 02 July 2007, that the payment of such fee is not authorized.

However, during a conversation with Mr. Douglas D. Zhang and Mr. Alfred Froebrich of the law firm of Cohen, Pontani, Lieberman & Pavane (see attached Interview Summary), the payment of the fee under 37 C.F.R. § 1.17(p) has been authorized and therefore, the information disclosure statement has been considered.

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided

Art Unit: 3635

by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Mr. Douglas D. Zhang and Mr. Alfred Froebrich of the law firm of Cohen, Pontani, Lieberman & Pavane on 17 September 2007.

The application has been amended as follows:

IN THE CLAIMS:

Please amend claim 10 as follows:

a profile ~~which can receive~~ having a recess capable of receiving the movable wall;

an eccentric pin fixed to the turning knob eccentric to the stub axle; and

a slotted link fixed to the fixing element, the slotted link having a slot which receives said eccentric pin to translate rotational movement of said knob into linear movement of said fixing element.
